COME SEE FOR YOURSELF, JOIN THE DISCOVERY TOUR!

Want to learn some tricks around developing a low cost but highly effective Offshore team?

Join us on the TechnoGlobal Team (TGT) and SMBiT Business Tour travelling to the Philippines and find out what 60+ MSPs have already discovered – that building your own Offshore team with TGT is not only simple and cost effective, but also a powerful way to grow your business.

What will you get out of the tour?

How to find, engage, and manage workers in the Philippines. You will also learn how to grow your business to provide you with the freedom and lifestyle that may not be possible now.

But it's not all desks and boardrooms. Be our guest at the Techno 2019 Fiesta.

Starting on Friday night with TGT's Illumination Year-End Party at House Manila, a world-class nightclub in Resorts World Manila. Join in the celebrations with over 350 staff and partners for our 2019 Christmas party.

This is a great chance to meet the Filipino employees that work at TGT and the MSPs that employ them.

This is followed up on the Saturday night with the TGT End of Year Partner Function.

At this event you will get unparalleled access to chat and share ideas with MSPs from around the globe.

It's one hell of an adventure, but don't take our word for it. Just ask some of the companies that already call TGT home:

maxIT · NOVA · phase42 · powernet IT SOLUTIONS · evologic · HostedNetwork · MSP BLUESHIFT · Techware

PREMIER · Qbit · Rock IT · JEM · glüh · lancom · gpk · scorptec
